

Dow Jones Emerging Markets Consumer Titans 30 Index Consultation

NEW YORK, JANUARY 16, 2018: S&P Dow Jones Indices (“S&P DJI”) is conducting a consultation with members of the investment community on potential changes to the Dow Jones Emerging Markets Consumer Titans 30.

S&P DJI is seeking market feedback on the following proposed changes with a goal to more effectively and comprehensively capture the emerging market consumer theme while limiting geographic and single stock concentration.

Changes	Methodology	
	Current	Proposed
Index Universe	The index universe is defined as all constituents of the Dow Jones Emerging Markets Consumer Goods Titans 30 and Dow Jones Emerging Markets Consumer Services Titans 30.	The index universe is defined as all constituents of the S&P Emerging BMI ¹ that are classified in the GICS ² Consumer Discretionary (25), Consumer Staples (30), and Communication Services (50) sectors.
Geographic Revenue Exposure Requirement	--	Companies must derive at least 75% of their revenue from emerging markets (60% for current constituent companies).
Selection Universe	Stocks in the index universe having more than 10 non-trading days over the past quarter are excluded. In addition, stocks that make up the index universe must have a six-month median daily value traded of at least US\$ 5 million (US\$ 3 million for current constituents).	Stocks in the index universe having more than 10 non-trading days over the past quarter are excluded. In addition, stocks that make up the index universe must have a six-month median daily value traded of at least US\$ 3 million (US\$ 2 million for current constituents).
Constituent Selection Criteria	<p>Constituent selection is as follows:</p> <ol style="list-style-type: none"> 1. Companies in the selection universe are ranked by combined float-adjusted market capitalization. 2. Companies are then selected top-down until the target count of 10 companies per industry (30 companies in total) is reached subject to the following buffers: <ol style="list-style-type: none"> a. Any non-constituent company ranked among the top 20 replaces the lowest ranked constituent. b. Any constituent company not among the top 40 companies is replaced by the highest ranked non-constituent. 	<p>Constituent selection is as follows:</p> <ol style="list-style-type: none"> 1. Companies in the selection universe are ranked by combined float-adjusted market capitalization, revenue, and net profit. A final rank is calculated by weighting the float-adjusted market capitalization rank at 60%, the revenue rank at 20%, and the net profit rank at 20%. 2. Companies are then selected top-down until the target count of 20 companies per GICS sector (60 companies total) is reached subject to the following buffers: <ol style="list-style-type: none"> a. Any non-constituent company ranked among the top 10 in each sector replaces the lowest ranked constituent. b. Any constituent company not among the top 25 in each sector is replaced by the highest ranked non-constituent.

¹ Note that the S&P Emerging BMI includes companies domiciled in Taiwan, which are excluded from the current index universe. For more information on the S&P Emerging BMI, please refer to the *S&P Global BMI, S&P/IFCI Methodology* available [here](#).
